HEALTHY LAKE NEWS

We are very proud of our beautiful lakes and the health of them is our top priority. As part of our lake assessment, we will be improving the functionality of the culvert pipe, which controls the water level of the main lake against rainfall.

Our lake committee members continue to constantly monitor lake health so we can enjoy it for years to come

GO FISH!

Residents are now allowed to CATCH AND KEEP Largemouth Bass from our main lake, for a limited time! Our lake assessments were completed in February and they determined that our Bass have an excessive population/overcrowding issue and this will help. We will let everyone know when this returns to Catch & Release.

BE A COURTEOUS NEIGHBOR!

** Please drive slowly through the neighborhood. We have a lot of walkers and bike riders that need to be able to do so safely.

** Please be a responsible dog owner and pick up after your doggo.

SUPER FUN NEWS

You're Invited!

SUMMER KICKOFF BBQ

DATE: May 20th
1:00 pm

Location: North Glynn Park Pavilion closest to walking trail/lake

Please bring a dish to share
Pulled pork BBQ and drinks provided

Bring chairs/outdoor games/blankets for lawn

Catch & Keep Fishing!

Location: Big Lake

Type of Fish: Largemouth Bass sizes 14" to 17"

Catfish of any size is ok to keep also.

How Many: 75-100lbs*

Please notify a board member on the number/sizes of fish you keep so we can keep track.

The lake is for RESIDENTS ONLY. You are welcome to have guests, but please either be with them or notify the board if a guest is planning to use the lake so we can monitor any unauthorized visitors.

For safety reasons, and as a courtesy to your neighbors, please limit fishing by boat/kayak to daytime hours.

FRUSTRATED WITH MOSQUITOS & MIDGES?

Their natural predators are bats, birds, & dragonflies. Consider putting up a bat house & avoid using pesticides that kill dragonflies & other important pollinators.

Plant pollinator-friendly flora to attract dragonflies & birds.

A single bat can eat up to 1,000 mosquitos per hour = 6,000-8,000 per night! Wow!
